

Conference Venue & Accommodation

The conference will be held at the International Convention Center Jeju (www.iccjeju.co.kr). The ICC JEJU has been the venue for many international meetings including IUCN World Conservation Congress in 2012. The ICC JEJU is located in the Jungmun Tourist Complex which provides top-quality accommodations and tourist attractions. There are many types of accommodation near the venue ranging from the luxurious hotels to condominium and guest house. For further information, please visit the website <http://www.mercury2015.com>

Travel & Tour

Jeju is an oval-shaped volcanic island, situated off the southern tip of the Korean peninsula. Various kinds of excursion programs will be arranged such as World Natural Heritage tour, Leisure tour and Cultural experience tour. In particular, a season of Jeju in June exhibits mild temperate climate (20~25°C or 68~77°F), making it perfect to experience a wide range of outdoor activities. Jeju allows visa-free entry for international participants. For more information, please refer to <http://www.jeju.go.kr>.

Way to get to Jeju

Option 1. By Domestic Flights from Incheon/Gimpo Airport

Option 2. By Direct International Flights from major Asian cities

Welcoming message

Dear Colleagues,

It is a great pleasure and an honor to extend our warm welcome and invite you to the 12th International Conference on Mercury as a Global Pollutant (ICMGP) to be held in Jeju, Republic of Korea during June 14-19, 2015.

The Minamata Convention on Mercury is finally adopted in October, 2013 as a global treaty to protect human health and the environment from the adverse effects of mercury. Through this conference, with theme of 'Today's Action, Saving the Future' our wish is to enhance understanding on every aspect of mercury issues. We strongly believe that the ICMGP will once again provide opportunity to advance communications on actual mercury reduction action - where networking between academics, governments, industries, and citizen is essential along with the cooperation among developed and developing countries.

The host city, Jeju is a sub-tropical island with unique volcanic features and is designated as World Natural Heritage in 2007 by UNESCO. We hope that you could fully enjoy yourself the exotic nature of this beautiful island.

We look forward to seeing you in Jeju, 2015.
Sincerely,

Kyunghee CHOI
Director General of NIER, KSEA

Eunhee HA

Yangho KIM
Professor of Univ. of Ulsan, KSOEM

Introduction of ICMGP

The International Conference on Mercury as a Global Pollutant (ICMGP), held periodically for over 20 years since its inception in 1990, has provided a forum for researchers and policy makers to explore important advances in mercury research and to facilitate internal and international collaborations. Recent meetings have attracted many hundreds to over a thousand conferees for the five day conferences and exhibitions. All contributions in forms of oral presentations and posters are very welcomed as well as participations in the exhibition.

Important Dates

Presentation	Call for special sessions	July 15, 2014
	Close of special sessions submission	September 15, 2014
	Open for abstract submission	October 15, 2014
	Close of abstract submission	January 10, 2015
Registration	Online registration open	October 15, 2014
	Close of early bird registration	April 15, 2015

Conference Social Programs

Sunday, 14, June	Conference workshops on mercury analysis training Opening ceremony & Welcome reception
Monday, 15 June	Lunch with Mentors
Tuesday, 16 June	Young scientist's Networking Day
Wednesday, 17 June	Lifetime Achievement Award ceremony
Thursday, 18 June	Conference reception & dinner
Friday, 19 June	Closing ceremony

Topics of General session

- ❖ Advances in analytical methodologies
- ❖ Mercury stable isotope biogeochemistry
- ❖ Sources and emissions of mercury
- ❖ Mercury modeling
- ❖ Atmospheric mercury
- ❖ Mercury in ocean
- ❖ Mercury in polar ecosystems
- ❖ Mercury in terrestrial & freshwater ecosystem
- ❖ Mercury exposure and effects in fish and wildlife
- ❖ Environmental biogeochemistry
- ❖ Microbial transformation of mercury
- ❖ Mercury bioaccumulation and tropic transfer
- ❖ In-vivo & in-vitro toxicology of mercury
- ❖ Human exposure and risk assessment
- ❖ Health effects of mercury
- ❖ Mercury and climate change
- ❖ Mercury control technologies
- ❖ Mercury in artisanal and small scale gold mining
- ❖ Mercury contaminated site & remediation
- ❖ Wastes containing mercury
- ❖ Mercury regulatory issues and policy

Sponsorship

You are invited to become a sponsor of the 2015 Conference. There are several opportunities to target your support of the conference and related activities. These include travel support for students and under-represented groups, sponsorship of materials and sponsorship of conference social programs, etc. For more information on the sponsorship, please contact us at icmgp2015@gmail.com.
